The universal allure of quality

Shinnoki is Decospan's recognition of the magnificence of trees and the natural world. Each panel is a homage to wood and craftsmanship, combining tradition, modern technology, and attention to detail. It is nature at its finest.

We only use premium timber from sustainable forests, out of which our master craftsmen have the first pick, guaranteeing you the most exclusive aesthetic for your interior. After careful selection, they seamlessly joint the bundles, resulting in a uniquely curated sheet.

Whether you are using wood as the star of your interior, or as a timeless backdrop to complement your furniture and accessories, our wide selection of veneers and looks ensures that there is a Shinnoki for you.

Wherever you live and whatever your style, Shinnoki is a testament to the highest quality of craftsmanship.

Easy to work with, a pleasure to live with

Shinnoki wood veneer panels showcase the classic charm of wood while utilizing the liveability of veneer. Expertly crafted using our mixmatch technique to guarantee a beautiful and harmonious surface, these ready-to-use panels are the perfect choice for distinguished interiors that demand the best in quality and craftsmanship.

The range includes matching panels, veneers and edge banding, so you have a complete solution for your project.

Every look across the range has a mat surface and is ideal for a wide variety of applications, bringing bespoke style to any room.

The surfaces are treated to withstand scratches and water damage without compromising on the feeling of real wood, for timeless appeal long into the future.

The advantages of Shinnoki

THE FINISHING TOUCH

Optimized, state of the art techniques deliver a soft-touch, and deeper brushed wood experience, making Shinnoki the softest wood on the market. Our new, super mat finish amplifies the beauty and warmth of solid wood, while deep brushing enhances the authentic texture of each grain.

Your interior has never been closer to nature.

SCRATCH RESISTANT

Our panels are as sturdy as they are stylish. Our best-in-class finish is the result of a six-layer varnishing process that provides our ultimate protection against micro scratches without compromising on touch, color, and look.

PROTECTION AGAINST SPILLS

Extensive research and development has led to enhanced protection against liquids, making Shinnoki panels a go-to option for horizontal use*. Our advanced finishing technology penetrates the pores of every Shinnoki panel, insuring protection against drips and spills.

* Horizontal use is not recommended for kitchen and bathroom surfaces.

PREMIUM CRAFTSMANSHIP

Our artisanal manufacturing process employs a unique mixmatch technology, enabling our craftsmen to create a harmonious surface out of choice cuts of veneer, without compromising on quality. Shinnoki timber is sourced from FSC®-certified sustainable forests.

A LOOK FOR EVERY TASTE

Shinnoki offers a curated collection of contemporary, classic tones that will effortlessly fit any palette or style that your project requires.

WHAT YOU SEE IS WHAT YOU GET

Prefinished surfaces and a readily available range of panels, veneers and edge banding make Shinnoki a practical vision for your interior. Some designs can be combined with Parky Floors or Astrata Slats and Coustics, providing a consistent wood solution for your desired project.

Simply put, Shinnoki brings out the best in wood.

Product overview

Shinnoki is a range of premium ready-to-use veneered panels, developed to have the allure and advantages of solid wood, without any of the disadvantages. Available in 18 colors, the panels are brushed, stained and lacquered, requiring no additional finishing. Uniform quality is guaranteed with the natural, lively appearance and feel of wood.

Real wood, enhanced

The top and bottom layers of Shinnoki are sheets of wood veneer, expertly crafted using our mixmatch technique. The surface is then brushed, stained and lacquered with a soft-touch acrylate urethane lacquer. The result is the perfect balance between protection, a natural feel, and the timeless elegance of wood.

What is mixmatch?

Mastered over decades, this signature technique guarantees a uniform surface. Various slicing techniques are applied to select cuts of timber from different trees, then jointed together into a sheet. Each panel is characteristically unique to solid wood without visual inconsistencies or structural compromises.

Sustainable at every stage

As a leading manufacturer of veneer based products, respect for nature and ecologically sound business practices are an unconditional basic principle.

We make extensive use of green energy, including solar and wind energy, in order to achieve carbon neutrality during our finishing process. Furthermore, we adhere to the strict EU and the US guidelines regarding VOCs. The wood veneer and MDF panels used only come from responsible forestry and are FSC® certified.

We also optimize the use of wood by processing it as veneer while our mixmatch technology ensures maximum yield and efficiency.

Applications

Shinnoki panels are best suited for interior applications and easily fit into any commercial, retail, hospitality or residential project. Common applications include home or office cabinets, kitchen fronts, dressings, fixed furniture, reception desks, hotel closets, etc. Shinnoki panels are suitable for horizontal use but are not recommended for horizontal use in kitchen, bathroom, or similarly humid areas.

Care

Normal maintenance involves no more than removing dust with a soft, dry cloth. A slightly damp cloth can also be used, but avoid using too much water. If liquids are spilled, it is recommended that they are dried immediately. Tough dirt can be removed using water and a mild cleaning agent or a detergent. Never use a cleaner based on acetone or ethyl butyl acetate without consulting Decospan, as these substances can leave marks that cannot be removed. Wax and oil based products can also cause damage.

Shinnoki panels

HIGH QUALITY PANELS, FROM CORE TO SURFACE

Shinnoki prefinished panels are made up of 2 layers of veneer, with an 18 mm - 11/16" thick MDF in between. This range of wood veneered panels does not need any further finishing. There is almost no limit to the ways it can be used, from homes and offices, to bars and restaurants.

Depending on your needs and purposes, Shinnoki panels come in two different executions:

EXCLUSIVE

The very best that Shinnoki has to offer. Both sides of the panel have Shinnoki quality veneer, for the most harmonious look available.

PREMIUM

Shinnoki quality veneer on the front side. The back has the Shinnoki look and feel, while allowing for a bit more character in the veneer.

3050 x 1220 x 1 mm
(4' x 10' x 1/25")

Shinnoki laminates

REAL WOOD VENEER WITH UNLIMITED POSSIBILITIES

Shinnoki prefinished veneered laminates are made up of stained and lacquered real wood veneers, laminated to a paper that is impregnated with a phenolic resin (HPL). The result is a firm but still flexible product that can be applied as easily as a HPL decorative laminate. They perfectly complement Shinnoki panels, are ideal for applications such as interior doors and where rounded elements are required.

Veneer 24 or 48 mm x 100 m
(15/16" or 1-7/8" x 328 ft)
ABS 24 or 48 mm x 50 m
(15/16" or 1-7/8" x 164 ft)

Shinnoki edge banding

THE PERFECT EDGE FINISH

For seamless edge finishing, you can rely on our range of prefinished edge bandings. There are both veneer edges and ABS (acrylonitrile butadiene styrene) edges available. The veneer edge banding guarantees a refined finish using the same veneer and look as the Shinnoki panels, including the natural character of the wood. ABS edgebands are designed for intensive use applications, and are color and structure matched to the panels.

Finishing pens

THE DEVIL IS IN THE DETAILS

Correction pens in matching colors are available for small corrections to panels or edges. The color pen is matched with the Shinnoki look and the mat varnish pen guarantees the same feel as the original panel.

Technical details

Panels

- **SIZE**
2790 x 1240 x 19 mm (4' x 9' x 3/4")
- **COMPOSITION**
Top layer of real wood veneer stained and UV protected with six layers of UV-lacquer, applied sequentially by means of a rolling technique and intermediate curing; a core of MDF with a high density of 700 kg/m³ (±50 kg/m³) and a backing layer of veneer.
- **BONDING**
The HPLT (High Pressure Low Temperature) press procedure used by Decospan guarantees the best quality for each panel. The process follows the DSI-method, ensuring complete saturation of the wood fibers and a significantly tight bond.
- **FINISHING**
Stained with water-based colorants and protected with six layers ultra-low emitting acrylate urethane UV-cured varnish (99.5% solids), applied sequentially by means of a rolling technique and intermediate curing; mat finish (2 ±1), semi-mat finish (7 ±3).
- **PROTECTION**
Panels made with our Exclusive execution have removable transparent protective foil on both sides.
Panels made with our Premium execution have removable transparent protective foil on the front side and green protective foil on the back side.
- **PACKAGING**
25 panels per pack.
Gross dimensions per pack:
2800 x 1250 x 580 mm (49.2" x 110.2" x 22.8").
Gross weight per pack: 1200 kg (2646 lbs)

Laminates

- **SIZE**
3050 x 1220 x 1 mm - (4' x 10' x 1/25")
- **COMPOSITION**
Top layer of real wood veneer laminated to a paper impregnated with a phenolic resin.
- **FINISHING**
Stained with water-based colorants and protected with six layers of ultra-low emitting acrylate urethane UV-cured varnish (99.5% solids), applied sequentially by means of a rolling technique and intermediate curing; mat finish (2 ±1), semi-mat finish (7 ±3).

Edge banding

Available as prefinished, unglued 0,6mm veneer edge banding in a range of colors, as well as 1 mm (1/25") ABS edge banding. Both options come in 24 mm (15/16") and 48 mm (1-7/8") height. The 0.6 mm (1/42") veneer edge bands are wrapped per roll of 100m (328 ft). The color and structure of the ABS-edges are aligned with the Shinnoki designs. These are available per roll of 50m (164 ft).

STORAGE, HANDLING & PROCESSING INSTRUCTIONS

For the storage, handling & processing of Shinnoki, please refer to www.shinnoki.com.

WARRANTY

Shinnoki is a natural product and is subject to discoloration by UV exposure. See www.shinnoki.com for warranty conditions.
